Part 3 Type of Review

I wish to have a: Review Report Review and report

1. Review:

A new and independent re-mark of the test by a member of the examiner panel not involved in the original marking of the test. NAATI provides an unmarked copy of the candidate's script to the reviewer. At the end of this review process, the test paper will have been assessed by at least three different examiners. The final review result is determined by averaging the assessments of all markers, the original markers and the reviewers.

2. Report:

One original marker of the candidate's test provides a detailed report on the candidate's performance, giving both positive and negative aspects. This report will include some examples, but will not provide corrections or correct answers.
